

SYMPOSIUM ON NEURODEGENERATIVE DISEASES

Monday, March 25, Instituto Cajal CSIC.

16:00 Welcome and Introduction
Chairperson: Rosario Moratalla

16:10 María Llorens, Centro de Biología Molecular “Severo Ochoa” CSIC-UAM. “Adult hippocampal neurogenesis is abundant in neurologically healthy subjects and drops sharply in Alzheimer’s disease patients”.

16:40 Carlos Vicario, CIBERNED, Instituto Cajal CSIC. “Exploring mechanisms of neurodegeneration in neurons and astrocytes derived from human iPSCs”.

17:10 José J. Lucas, CIBERNED, Centro de Biología Molecular “Severo Ochoa” CSIC-UAM. “Altered RNA-processing in neural disorders from Huntington to autism”.

17:40 Coffee break

18:00 C. Warren Olanow, Icahn School of Medicine at Mount Sinai, New York City, USA. “Inflammation and Alpha Synuclein - a possible explanation for the prion conformer reaction” (introduced by J.A. Obeso).

19:00 End of meeting

Instituto Cajal CSIC

Av. Dr. Arce, 37.

28002 Madrid
